Committee Charge

1. Providing a report and any recommendations for corrective actions to the Board on the overall implementation of the bond programs. The report is presented orally and/or in writing twice each year and provides feedback and issues related to staff's presentation to the CBOC on the following topics:
 - a. Overall budget status
 - b. Oversight of quality and schedule
 - c. Contingency
 - d. Stakeholder satisfaction
 - e. HUB utilization
 - f. Any proposed substantive changes
 - g. Issues and risks
 - h. Communication strategies and methods
2. Utilizing the report to provide perspective on key decisions and actions that have been taken by staff and the Board since the last report submitted to the Board.
3. Maintaining a record of work and findings to inform the Board should another bond election be undertaken.
4. Reviewing information from staff on all projects and expenditures of bond funds and on the timelines and progress of the bond programs.
5. Working with staff in assessing the levels of satisfaction of key campus stakeholders with the quality of work and rating of customer service.
6. Reviewing and evaluating the survey results provided by staff.
7. Evaluating any proposed changes to the individual scope of work to the voter-approved bond programs and communicating any noted concerns to the Board.

CONSTRUCTION MANAGEMENT

2017 Bond Program Comprehensive Projects

What are comprehensive (modernization) projects?

A large scale project that typically results in a new school, a replacement school or a major renovation to all or a significant part of an existing school. Comprehensive projects are modernizing projects, allowing the district to incorporate significant elements of the District's Educational Specification into modernized spaces. "Modernization" and "Comprehensive" projects are often used in district reporting interchangeably.

Project Phase Order

01. Preliminary

- Pre-design
- Scope verification

2013 Bond Contingency Approved Projects

What are 2013 Contingency Approved Projects?

Contingency funds allocated by the CBOC are a result of project savings that accrue over the lifetime of a bond program. Program contingency is allocated by the CBOC and approved by the Board of Trustees toward the end of a bond program to address other capital needs of the district.

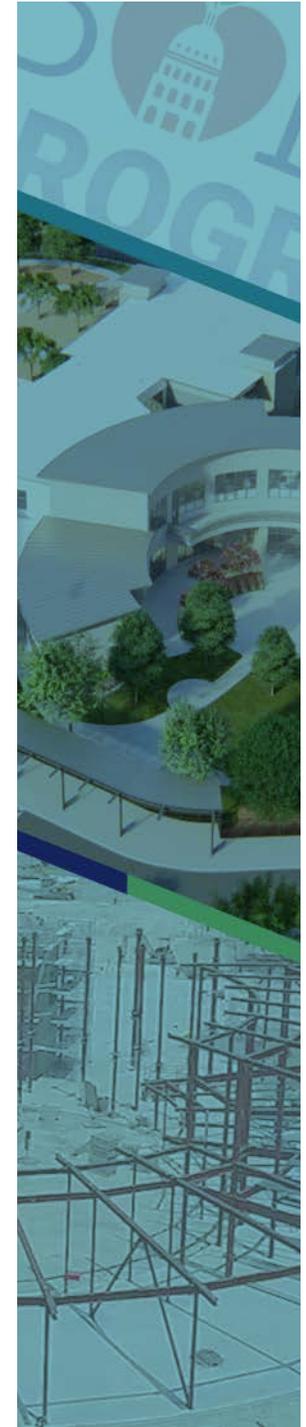

Board Approvals:

- March 27, 2017 \$9,964,000 and May 22, 2017 \$30,662,000
- December 18, 2017 (Remaining funds from these contingency approved projects may be used to address similar critical needs within specific categories.)

2013 Bond Program Active Projects Detail

As Of December 2, 2019

The Construction Management department is refining our reporting and financial systems. Our financial systems are expected to take at least six months to reflect amendments with this ongoing refinement. We are working on increased coordination to accurately report details of active projects.

Note: Large project balances indicate ongoing projects or project in closeout. Funds will be swept.

CBOC Update

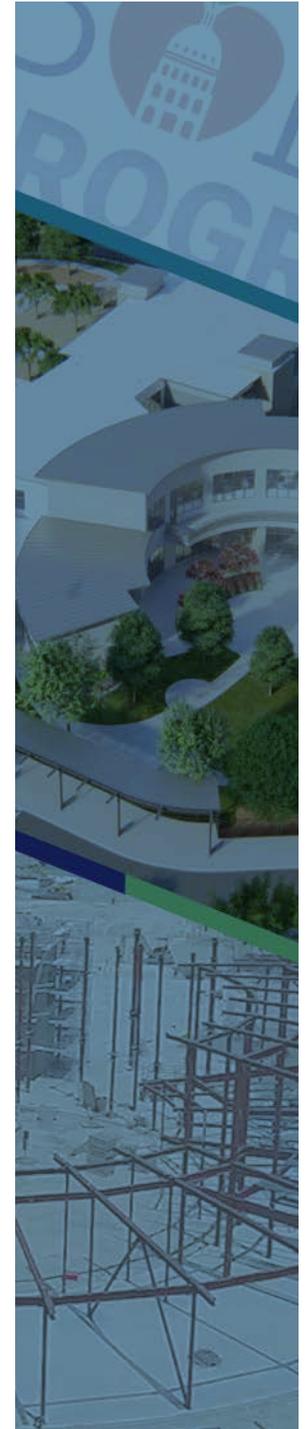

December 2019

Four (4) outreach events were attended since our last CBOC meeting (see attached Outreach Report). For the month of December, we will attend the Travis County Bond Projects Forum at the Asian American Resource Center. We will be present to network and provide information about our current and upcoming bond projects.

HUB Participation A/E and Construction reports for the 2013 & 2017 Bond Programs (see attached report).

HUB participation in the District's 2017 Bond Program thus far, is expected to meet or exceed HUB aspirational goals. We are still in the infancy of the 2017 Bond Program with currently 40 projects underway. The total project dollars are loaded on the front end of the Design Build (DB) and Construction Manager At-Risk (CMAR) modernizations. Many of the DB and CMAR projects have not been assigned subcontract/consulting work since they are at the beginning phase of design. Thus the numbers can appear to be skewed by not showing our full HUB participation for DB and CMAR projects on our reporting. However, our goal is to work closely with each awarded firm on their HUB goals and plans to include minority participation. Additionally, there are more projects coming that are not included in the reporting. This school year thus far, we currently have 25 projects and at least 10-15 more to prepare for advertisement before June 2020.

We understand that several of the awarded prime firms have low HUB participation numbers. We plan to meet with them during the close out phase to review and discuss their HUB participation. With the upcoming openings of Govalle, Menchaca and T.A. Brown we can begin to take a closer look at the true numbers and HUB participation to review each awarded firms - Balfour Beatty, Joeris and Roger's O'Brien - commitment to meeting our HUB goals. This review can improve our strategy and provide lessons learned on how to increase our participation.

Austin ISD 2017 Bond Implementation

CBOC Communications Summary

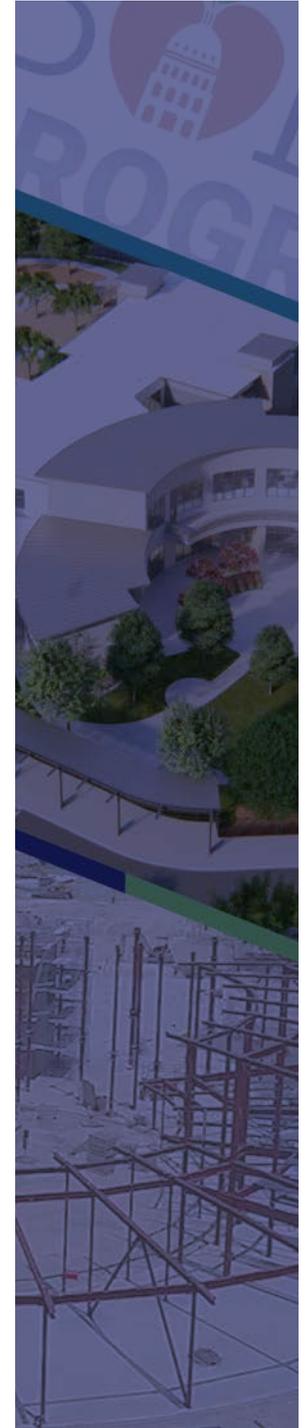

December 2019

Community Meetings

As part of the district's commitment to communicate progress of the bond with stakeholders, each project team is required to host a minimum of four community meetings throughout the design process. These meetings are meant to provide updates from Campus Architectural Team meetings, answer questions and collect feedback.

Since the last CBOC report the following community meetings were held:

- **October 10** - Hill Elementary School hosted a community meeting to discuss the modernization project and the design development phase.
- **October 16** - Bowie High School held a community meeting to share details about the modernization project. Page Architects provided updates on the Athletics & Fine Arts Improvements Schematic Design and the Parking & Traffic Improvements Construction Documents.
- **October 17** - Austin High School hosted a community meeting to share details about the modernization project.
- **November 19** - Brentwood Elementary School hosted an initial community meeting to discuss the logistics of an off-site Swing Space.
- **December 11** - Brentwood Elementary School hosted a second community meeting to continue the discussion about off-site Swing Space.

Upcoming community meetings include:

- **December 14** - T.A. Brown Elementary School will host a parent event to discuss details about the modernized school and share the new drop off and pick up procedures. The meeting will be from 9:30-10:30 a.m. outside of the new facility.

The CAT, established for each major construction and modernization project, is responsible for advising the district on how to modernize their facility and shape the environment for 21st century learning. These teams meet regularly throughout each phase of the project, from initial planning through design, construction and finally the opening of the school.

Upcoming CAT meetings include:

- **December 16** - Metz, Sanchez Elementary School from 3:45-5:15 p.m at Metz Elementary School.
- **December 16** - Casis Elementary School from 4:30-6 p.m in the Casis library.
- **December 17** - Brentwood Elementary School from 4:30-6 p.m. in the Brentwood library

Milestone Ceremonies

As the district moves into the new school year, the bond communications team is looking forward to the upcoming milestone ceremonies that will take place in the 2019-2020 school year.

As previously shared, the district will celebrate three grand opening ceremonies in January 2020:

- **T.A. Brown Elementary School** - The grand opening ceremony will take place on January 8, 2020 from 9-10 a.m.
- **Menchaca Elementary School** - The grand opening ceremony will take place on January 10, 2020 from 9-10 a.m. Additionally, Menchaca Elementary School will host an open house for the new facility on January 11 from 10 a.m. to 1 p.m.
- **Govalle Elementary School** - TBD

Community Outreach

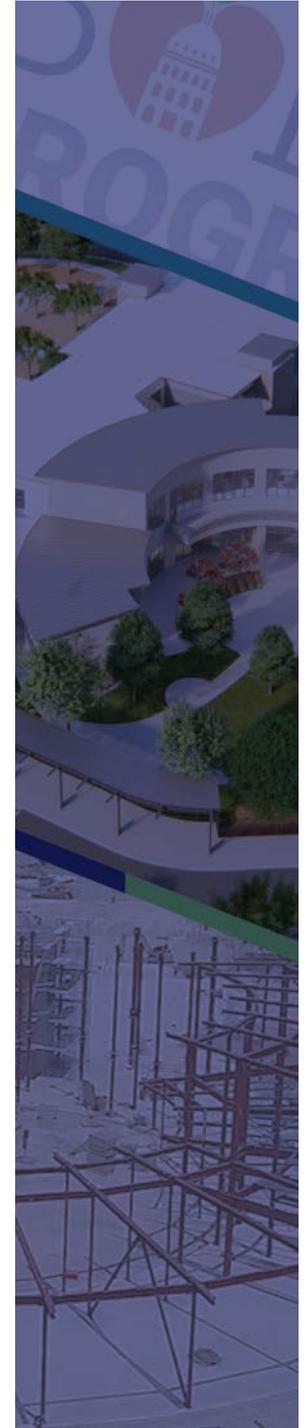

On November 19, the 2017 Bond communications team assisted in the planning and facilitation of a community meeting for Brentwood Elementary School to share information and collect feedback about the campus' temporary relocation to an off-site swing space. The team worked with AISD and campus leadership to plan the event, develop the presentation, and disseminate key information before and after the meeting.

The 2017 Bond team also helped the Govalle, T.A. Brown and Doss Elementary School modernization teams communicate necessary, temporary facility closures. For Govalle Elementary School, we shared the temporary closure of Gunter Street and the interruption of water services for some households in the neighborhood. For T.A. Brown and Doss Elementary Schools, the Bond team helped communicate the temporary closure of two public parks adjacent to each site. The communication strategies included collateral creation and dissemination, block walking and answering community questions.

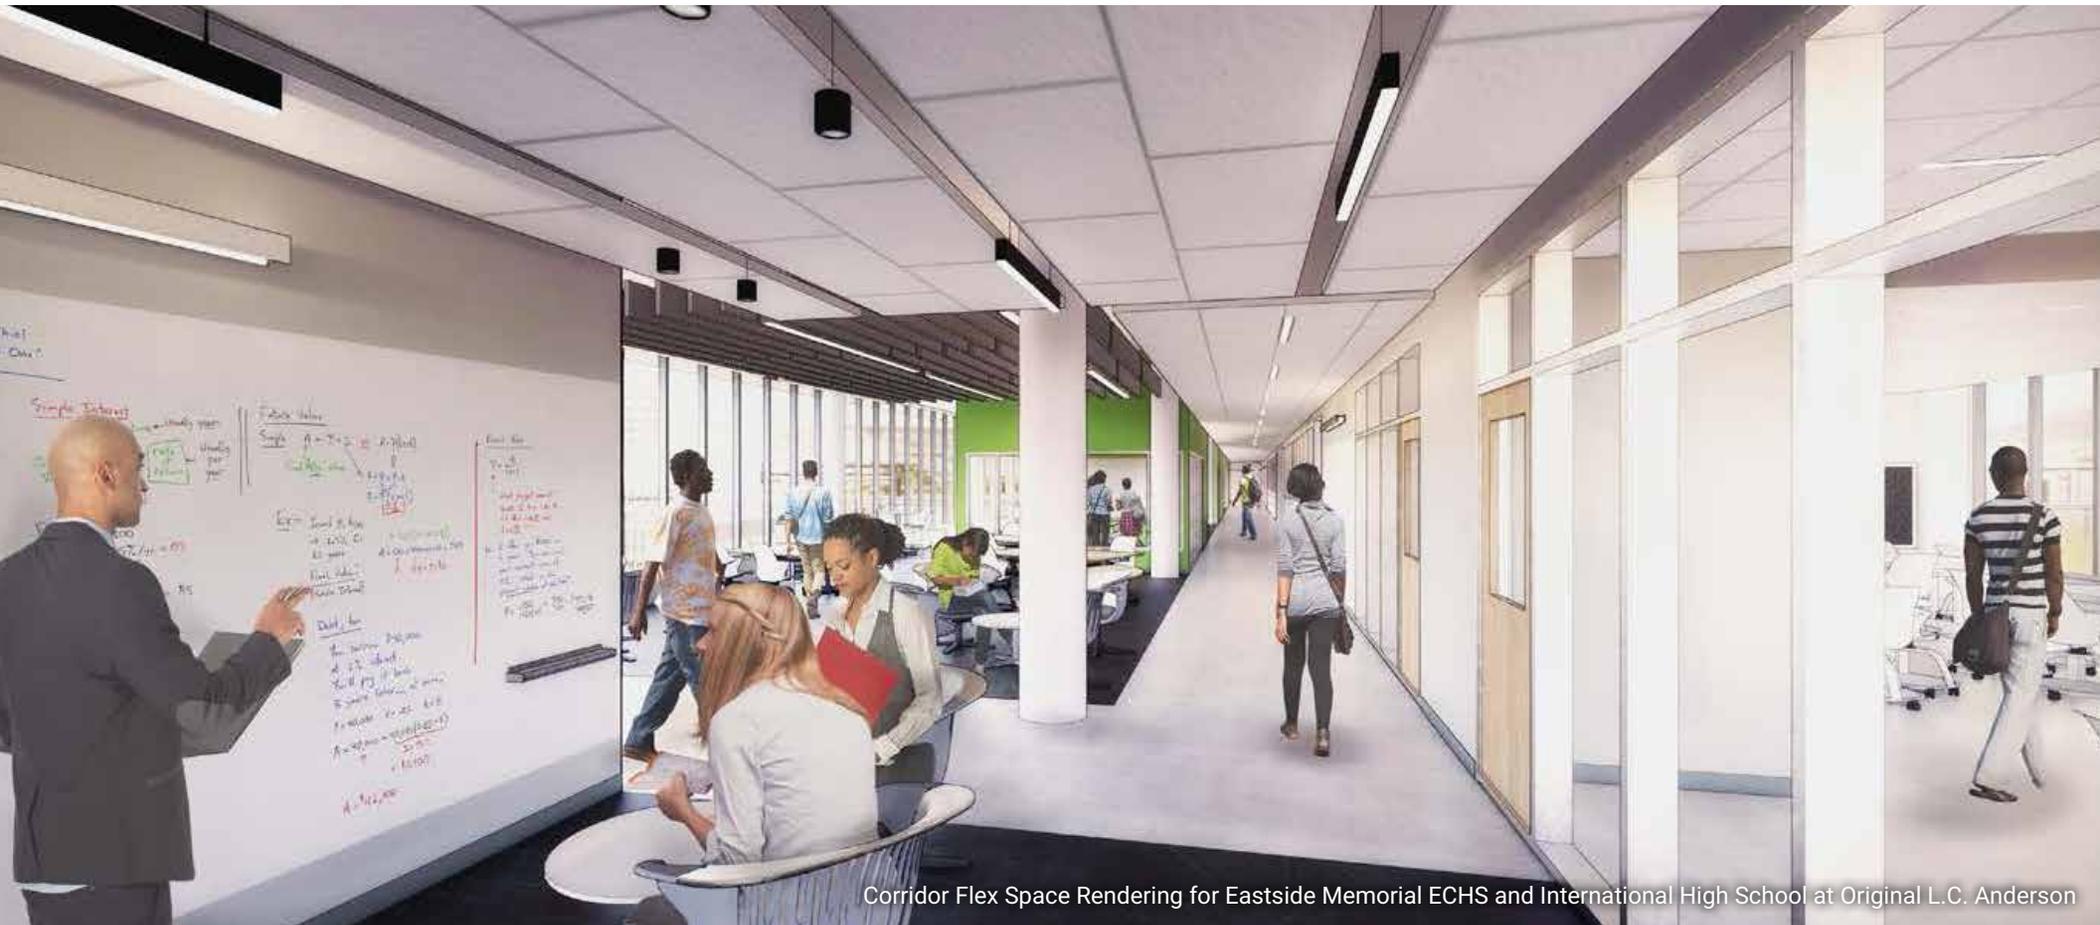

The 2019 State of the Bond Report went out in November, providing updates on progress for year two of the bond program. Additionally, the bond communications team is working with AISD TV to create a video celebrating the second anniversary of the passing of the 2017 Bond. The video will feature footage and testimonials from each of the three schools opening in early 2020.

Since the last CBOC report the communications team also attended the following community events: the Eastside Memorial Vertical Team Annual Harvest Festival, where we shared the latest details and design for the modernized school, A Tribute to Menchaca which celebrated the history of the campus' current facility, and AISD's Austin Design Week Panel, which discussed district education specifications and the need for modernized schools.

Project Stages

Preliminary

Includes pre-design, scope verification, programming, design fee negotiation.

Master Planning

A master plan is a dynamic long-term planning document that provides a conceptual layout to guide future growth and development. A master plan includes analysis, recommendations, and proposals for a site's infrastructure, buildings, drives, etc.

Design Procurement

A/E agreement has been requested and is in process but is not executed. (For comprehensive projects this phase includes the full solicitation and board approval process for the selection of an A/E.)

Bridging Documents

A bridging document is a high level design document required for a design build project, and needed before procuring the design build team. It generally includes a space program, adjacencies, site layout, and other design elements that are critical to the success of the project. The bridging document is the starting point for the more detailed design process.

Design

Begins at Notice to Proceed. Includes master planning, schematic design, design development, construction drawings.

Bid, Award

The full solicitation and board approval process for the selection and contracting of a general contractor.

Construction

Begins at Notice to Proceed and ends at Substantial Completion per the executed contract. Includes preconstruction third party work (surveys/geotech HAZMAT/abatement/demo); permitting; site prep; foundation/structural; mechanical, electrical & plumbing (MEP); envelop & dry in.

Punch Out

Involves construction from Substantial Completion to final completion including punch items, commissioning, test & balance and late minor change order work.

Closeout (Construction)

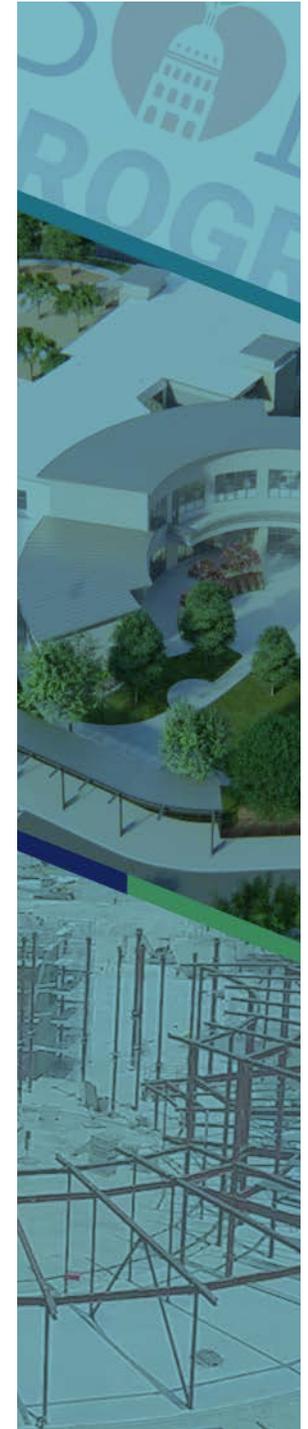

The administrative process of completing project paperwork and gathering and approving all record documents.

Closeout (Financial)

The administrative process of confirming that all financial transactions are complete and making the proper financial transactions to clear any balances from the project.

Complete

All physical and administrative work is complete. There is no further activity

GLOSSARY

Menchaca Elementary Site Development

BAS Building Automation System (HVAC and lighting controls)

The automatic centralized control of a building's heating, ventilation and air conditioning, lighting and other systems through a building management system.

Certificate of Occupancy

A document issued by a local government agency or building department certifying a building's compliance with applicable building codes and other laws, and indicating it to be in a condition suitable for occupancy.

Change Order

A modification to the original construction contract authorizing a change in the work or an adjustment in the amount of the contract or the contract time.

Commissioning Agent

An independent party, unaffiliated with the design team or contractors, that takes charge of the construction commissioning process.

Competitive Bidding

A procurement method by which a governmental entity contracts with a contractor for the construction, alteration, rehabilitation, or repair of a facility by awarding the contract to the lowest responsible bidder.

Competitive Sealed Proposal (CSP)

A procurement method by which a governmental entity may request proposals and pricing information based on the scope of work provided, rank the offers, negotiate a contract, and then award the project to the contractor that offers the best value to the entity.

Comprehensive (Modernization) Projects

A large scale project that typically results in a new school, a replacement school or a major renovation to all or a significant part of an existing school. Comprehensive projects are modernizing projects, allowing the district to incorporate significant elements of the District's [Educational Specification](#) into modernized spaces. "Modernization" and "Comprehensive" projects are often used in district reporting interchangeably.

Concept Design

An early phase of the design process, in which the broad outlines of function and form of something are articulated. It includes the design of adjacencies, interactions, circulation, experiences, processes and strategies.

Construction Commissioning

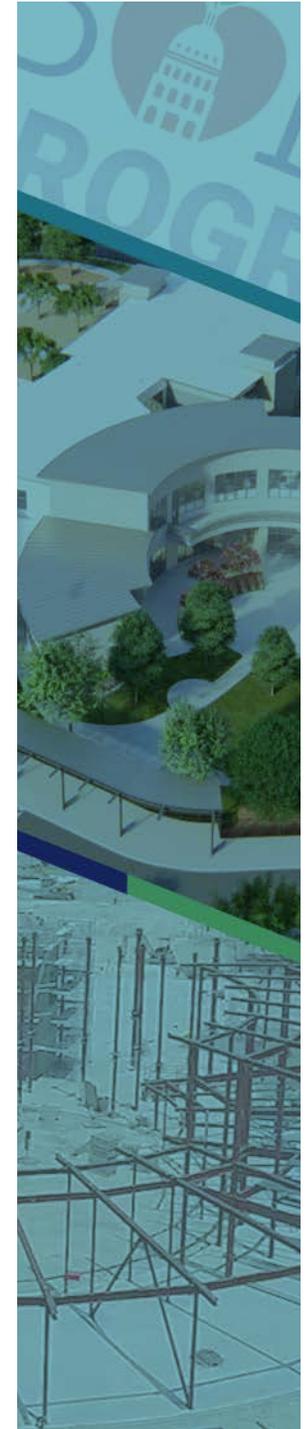

A collaborative process whose purpose is to ensure that buildings and systems perform according to contract.

Construction Documents

Extremely detailed drawings and specifications showing and describing all the details required to construct the building.

Construction Manager at Risk (CMR)

A construction delivery method by which a governmental entity contracts with an architect or engineer for design and construction phase services and contracts separately with a construction manager-at-risk to serve as the general contractor and to provide consultation during the design and construction, rehabilitation, alteration, or repair of a facility. A CMR is selected based upon qualifications and price proposal that would provide the best value for the governmental entity.

Contingency

An amount of money reserved by the owner to pay for unforeseen changes in the work.

Daylighting

A planned energy conservation strategy that utilizes illumination from sunlight.

Design Build

Method of design and construction procurement whereby an owner, in this case, AISD, procures one entity to provide design and construction services. Among the advantages of this procurement process are that it has the potential to save time and cost while protecting the other key element of construction - the quality of the end-product.

Design Development

Process in which schematic design drawings are further developed to include more detail, including: detailed site plan; room layouts; door and window types; interior and exterior elevations; reflected ceiling plans; plumbing, mechanical, structural, and electrical drawings; and kitchen layouts.

Design Team

A group of professionals from architectural and engineering firms that is engaged to design a facility.

Educational Specifications

A document that details the number of rooms required, the size of each room, how those rooms should relate to each other (adjacencies), and the elements (sinks, electrical outlets, markerboards, cabinets, etc.) that

should be included in each room. District-wide Educational Specifications will be adapted for the specific needs of the campus.

FF&E

Furniture, Fixtures, and Equipment. This describes all contents that are not a permanent part of the structure.

Hard Costs

Expenses associated with direct construction of a project, including labor and material.

Historically Underutilized Business Program (HUB)

Austin ISD promotes and strongly encourages the involvement and participation of Historically Underutilized Businesses (HUBs) in its construction projects. The District is committed to providing opportunities to small minority- and women-owned firms in the Construction Management Bond Program for a diverse array of contractors and service providers. The Board of Trustees adopted the formal HUB program in August 2016. More information is available at <https://www.austinisd.org/hub>.

HVAC

Heating, ventilation, and air-conditioning.

Job Order Contract (JOC)

A procurement method used for maintenance, repair, alteration, renovation, remediation, or minor construction of a facility when the work is of a recurring nature, but the delivery times, type, and quantities of work required are indefinite.

Leadership in Energy and Environmental Design (LEED)

A building certification process developed by the U.S. Green Building Council (USGBC) to enhance environmental awareness among architects and building contractors and to encourage the design and construction of energy-efficient, water-conserving buildings that use sustainable or green resources and materials.

MEP

Mechanical/Electrical and Plumbing systems.

Program or Concept Design

Single-line drawings that illustrate room adjacencies and scale.

Schematic Design

The schematic design submission typically includes a simple site plan, floor plans (simple scale drawings that show room sizes, relationships, doors, and windows), simple building cross sections, an outline specification with general information about building systems, a table comparing required square footages from the educational specifications with actual square footages shown on the drawings, a preliminary estimate of cost options, and possibly 3-dimensional depictions of the exterior of the building. Typically includes a simple site plan, floor plans, simple building cross-sections, an outline specification with general information about building systems, a table comparing required square footages from the educational specifications with actual square footages shown on the drawings, a preliminary estimate of cost options, and three-

dimensional depictions of the exterior of the building.

Soft Costs

A construction industry term, but more specifically a contractor accounting term for an expense item that is not considered direct construction cost. Soft costs include architectural, engineering, financing, legal fees, and other pre- and post-construction expenses.

Substantial Completion

A stage of construction that is sufficiently complete, in accordance with the construction contract documents, so that the owner may use or occupy the building or area for the intended purpose.

Swing Space

A school building or a portion of an existing school building or other facility that will house the student population and its teachers and staff during the school-construction process.

Targeted Project

A project to address a limited need at a school or district support facility such as a new roof, improved mechanical systems, a two room classroom addition, etc.
