Item 1: Additional Information to the Scope

Item 1:

Updated Sections: Page 6, Section 1.1, “Scope of Work”, Additional Information to the “Installation Phase” Section; and Page 19, “Proposal Form”, Additional Information to the “Work” Section

It is the intention of the district that the existing building security system shall remain operational during the installation of the new system.

The contractor’s scope of work will include the removal of previously existing security system devices and components to include motion detectors, swivel brackets, sirens, power supplies and panels. Contractor shall patch any wall or ceiling penetrations and provide a cover plate for any outlet boxes where devices or components have been removed. Control panels shall have the program chip removed and returned to AISD.

The AES Radio/IP Backup Communication Subscriber Unit will be provided and programmed by AISD.

Any required network wiring drops shall be performed by the AISD Network Contractor. Contractor shall include time for required wiring in the project schedule, and shall coordinate and schedule the work with the AISD Project Manager.
