

Show this to your doctor and discuss ways to pay less with your consumer-directed health plan.

For medications you take on a long-term basis, you'll save money by using the Express Scripts PharmacySM.

What you'll pay after meeting your deductible

You might pay different amounts for eligible medications, depending on which phase of your plan's three phases you're in:

- 1. Deductible:** _____ for you or _____ for your family. You pay all of your medical and prescription expenses until you meet this amount.
- 2. Copayment or Coinsurance:** the amount shown in the table. This is what you pay after the deductible but before the annual out-of-pocket maximum.
- 3. Out-of-Pocket Maximum:** _____ for you or _____ for your family. If you pay this much in a year, most medications for the rest of the year are covered 100%.

Save with home delivery and generics

Home Delivery: With home delivery, you could get up to a 90-day supply with **free** standard shipping, delivered right to you. **Call us at the number on your member ID card or visit Express-Scripts.com to get started.**

Generics: FDA-approved generics are just as safe and effective as brand-name drugs and they cost about 50% to 70% less.¹ Sounds good, right? Ask your doctor if a less expensive generic could help you.

Home delivery: savings and to-your-door convenience

Did you know you could avoid paying more money if you use home delivery? For your long-term drugs (those you take for at least 3 months), you'll typically pay less with home delivery from the Express Scripts PharmacySM. You'll get up to a 90-day supply with **free** standard shipping.

It's easy to start! Just call us at the number on your member ID card, and we'll ask your doctor for a new prescription. Or ask your doctor to e-prescribe or fax a 90-day prescription to us. You can also get started at Express-Scripts.com.

Generics: benefits for your health and budget

FDA-approved generics are just as safe and effective as brand-name drugs. The difference? Generics can cost about 50% to 70% less.¹ Today, nearly 8 in 10 prescriptions filled in the U.S. are for generic drugs.²

If you're taking a brand-name drug, ask your doctor if a less expensive generic is available.
